	CALIBRATION SERVICE REQUEST AND RECEIPT NOTE	VERSION 1

TERMS AND CONDITIONS (EXTERNAL CUSTOMER ONLY)

- Report will be submitted after receipt of 100 % Payment.
- Goods and Services Tax (GST) is applicable as per Government rules and regulations.
- Customer will collect the instruments within the delivery date given in this challan.
- Customer is requested to bring this copy at the time of collection of instruments,
- MET is not responsible once the instrument leaves our premises.
- Instruments received for calibration may be returned un-calibrated under circumstances beyond control, non-conformity observed during calibration and other problem related to instruments.
- All possible care will be taken in handling the instruments but the risk of damages during calibration must be assumed by customer.
- Dis-assembling and assembling of instruments must be done by the customer.
- In case of any dispute the decision of the Head of MET will be final.

Memorandum

- The calibration certificate issued by MET is a record the measurements conducted on products submitted to us for calibration and the results thereof. Unless otherwise specified in the report, the results are applicable to only to those products, which have been calibrated and do not apply to other product even though declared to be identical.
- This certificate if reproduced for any purpose commercial or otherwise should be reproduced in full. Reproduction of a part of the report or an abstract thereof must be specifically approved from the Head of MET.

Liability Clause

- MET shall not be liable for any change in calibration data and performance specification on account of malfunctioning of the standards / instrument / equipment due to any damage caused to it after the certificate, in respect of it, has been issued.
- The certificate shall not be regarded in any way diminishing the normal contractual responsibilities / obligations between the customer and MET.
- The results reported in this calibration certificate are valid only at the time of and under the stated conditions of the measurements.
